Amanco Ambition: Unlock core value, successful implementation

The ability of AMANCO to continually improve the quality of the service we provide to our customers is key to our long term business success. Part of that success includes an emphasis on ensuring human health, operational safety, environment protection, quality improvement, and community goodwill. Quality and HSE must be integrated throughout all business activities, behavior and strategic decisions, we are committed to deploy our QHSE Culture worldwide by striving to eliminate quality non-conformance and HSE incidents and to operate our business in a sustainable manner. This commitment is in the best interests of our customer, our employees and contractors, and the communities in which we live and work.

AMANCO requires an active commitment to and accountability for Quality, Health, Safety and the Environment (QHSE) from all employees as well as contractors whom we employ in the course of our business operations. Beginning with the senior Management group, all line managers have a leadership role in communicating, implementing, and ensuring compliance with QHSE policies and standards. Management is also responsible to provide sufficient resources for effective Quality and HSE management.

QHSE POLICY

Our Commitment is to

- 01** Identify the potential risk. Protect, and strive for improvement of the health and safety of our employees, customer, and third parties in the course of our business operations.

- 02** Meet specified customer requirements and ensure continuous customer satisfaction.

- 03** Set Quality & HSE performance objectives, measure results, assess and continually improve processes, service and product quality using an effective management system

- 04** Conduct audits to find eliminate, or control quality non conformities and health and safety hazards.

- 05** Provide all employees with appropriate training and personal protective equipment when work hazards cannot be completely eliminated.

- 06** Promptly and thoroughly investigate every incident and quality deviation from regulatory, management system requirements, or corporate policy to identify root cause and formulate corrective actions to minimize the probability of recurrence.

- 07** Continually evaluate our Quality and HSE performance and the effectiveness of our management system through regular reporting audits, reviews and external benchmarking.

Our Commitment is to

- 08** Develop and implement plans for response to and recovery from any emergency or crisis which results in personal injury, property damage, or other business disruption.

- 09** Minimize our per capita impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste.

- 10** Comply with applicable legal and other requirements as well as take any additional measures considered necessary.

- 11** Apply our technical skills to all HSE aspects in our services.

- 12** Communicate openly with stakeholders to ensure an understanding of QHSE policies, standards. Programs and performance.

- 13** Reward outstanding QHSE performance.

- 14** Improve our performance on issue relevant to our stakeholders which we can impact, and share with them our knowledge of successful QHSE programs and initiatives.

The commitments listed are in addition to our basic obligation to comply with AMANCO standards as well as all applicable laws and regulations in effect where we operate. This is critical to our business success because it allows us to systematically minimize all losses and adds value for our interested parties.

- ✓ Clean Agent Novec 1230.
- ✓ Dry Chemical Supression System.
- ✓ Fire Alarm System.
- ✓ Fire Detection System
- ✓ Fire Extinguisher System.
- ✓ Co2 Fire Supression System.
- ✓ High & Low Water Mist System.
- ✓ Hydrant Power System.
- ✓ Intelligent Aspirating Smoke
- ✓ Detection System.
- ✓ Pre Action Foam System.
- ✓ Pre Action Water System.
- ✓ Twin Agent System.
- ✓ Voice Evacuation System.
- ✓ Water Spray SysTEM.
- ✓ WATER SPRINGLER SYSTEM.

Telecommunication system

Today's dynamic enterprise environment requires smarter communication solution for diversified roles of employees. Flexible device usage and round-the-clock connectivity is the need of the hour for the mobile workforce in order to have consistent in-office experience while working from home, between appointments or while on the move.

Increasing competition, flexible work places and timings give rise to the need for more collaborative communication solutions for in-office and mobile workforce. With Collaboration and Mobility as the key aspects of business communications, the term 'Unified Communication has been evolved.

Tetra Radio Communication

Tetra which stands for Terrestrial Trunked Radio is an open standard for land mobile radio communication and it is more useful for having secured and quality communication in mission-critical and operation critical projects. Depending upon the usage and area of coverage Tetra radio communication may be handheld, portable, and vehicle-mounted and it can be also fixed-base devices Tetra radio communication is the most often used way of communication for so many years.

- ✓ Flexible and comprehensive
- ✓ Fast, robust, and highly secured
- ✓ Enables high-quality communication between users
- ✓ Interoperable
- ✓ Multi-vendor support
- ✓ High efficiency and more reliable

Building Management System

AMANCO is a pioneer in the fields of building management and automation systems. Our highly experienced engineers are qualified to handle the entire spectrum of building management systems (BMS), DDC modules, and HVAC controls.

Our BMS are computer-based systems that help manage, control and monitor building technical services (HVAC, lighting etc.) and the energy consumption of devices used by the building. They provide the information and the tools that building managers need both to understand the energy usage of their buildings and to control and improve their buildings' energy performance.

- ✓ Bms System
- ✓ Energy Management System.
- ✓ Hvac Control.
- ✓ Lighting Control.
- ✓ Home Automation.
